Signature API documentation

Introduction:

Welcome to Signature! This is a basic docs template. You can use it as a starting point for your own project :)

Signature:

Signature is a Blockchain-powered digital certificate & digital badge issuance platform that empowers institutions across the globe to establish tamper-proof digital certificates and badges using web 3.0 technology.
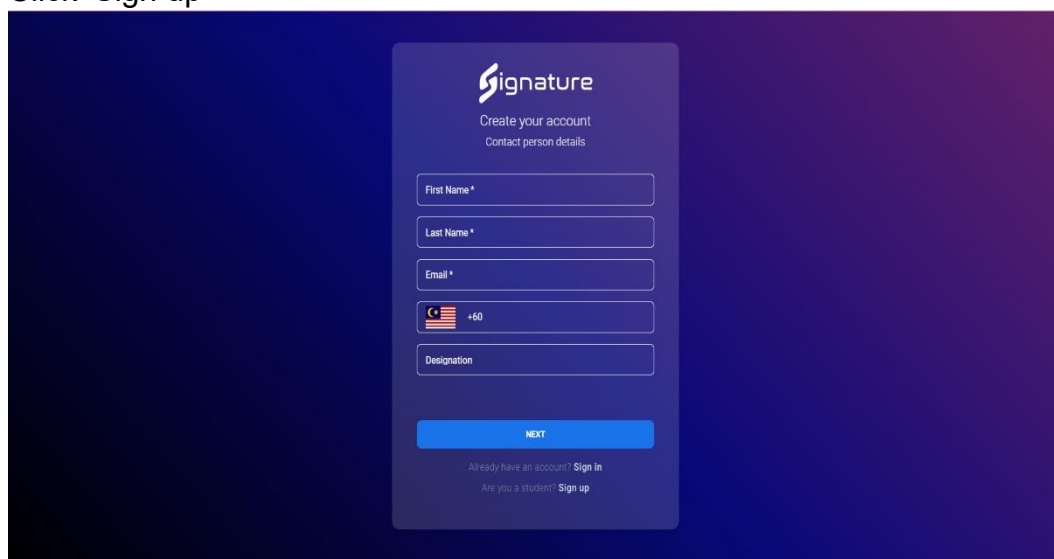

Our signature app has a 3 type of logins.

They are,

- **Super Admin** – Entire Organization data's are view.
- **Admin** – Admin login for creating institutions, authority signatures and student lists.
- **Student** – Just view their all certificate.

Admin:

Signup:

Create a new account in Signature

➢ Go to Our app link
➢ Click 'Sign up'

➢ Please enter Contact person details and organisation details with strong Password. Then click signup now you got like below image.

➢ Go to given mail id and open Welcome to Signature: Please verify your email address. Click confirm email button or click given link.

➢ Email is verified automatically redirected to Login page.

REST API:

Name: Login

Method: POST

Headers:

Body:

```
{
  "variables": {
    "input": {
      "userType": "Organisation",
      "organisationName": "XYZ",
      "organisationType": "University",
      "organisationSector": "Individual",
```

          "regType": "Education industry",

          "regNo": "ER4785",

          "address": "Chennai",

          "website": "xyz.com",

          "firstName": "Arul",

          "lastName": "S",

          "mobile": "+91 74125-89632",

          "designation": "Head Master",

          "email": "abi@yopmail.com",

          "password": "Admin@123",

          "confirmPassword": "Admin@123"

      }

   },

    "query": "mutation ($input: SignupRequest) {\n signup(input: $input) {\n responseCode\n   data\n   __typename\n }\n}"

   }

==

Login:

➢ Every user must login to the Signature in order to use the functions in the signature.
➢ Enter registered valid user credentials and click "LOGIN"
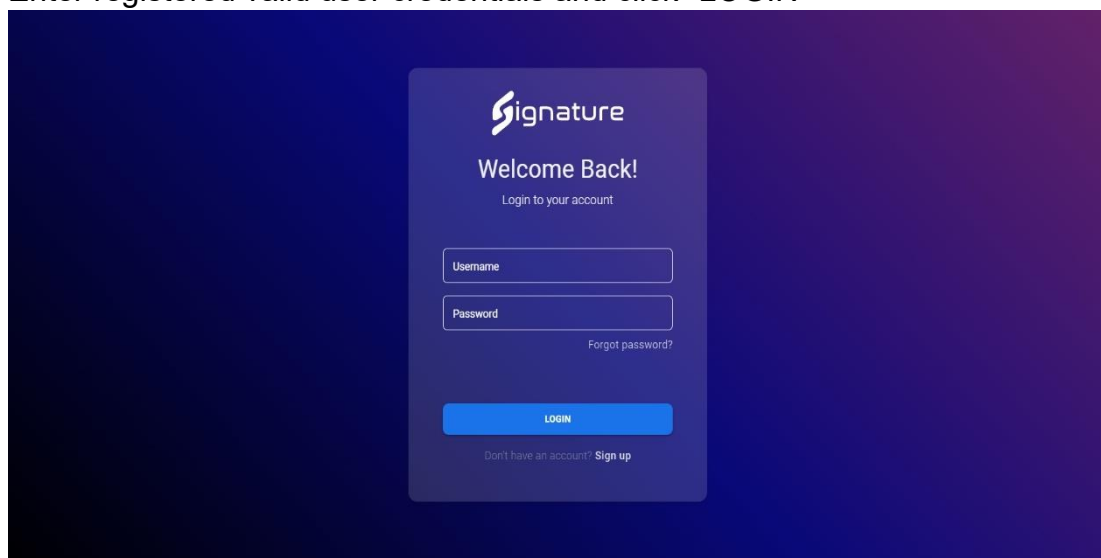

➢ Login Successful - Dashboard Page
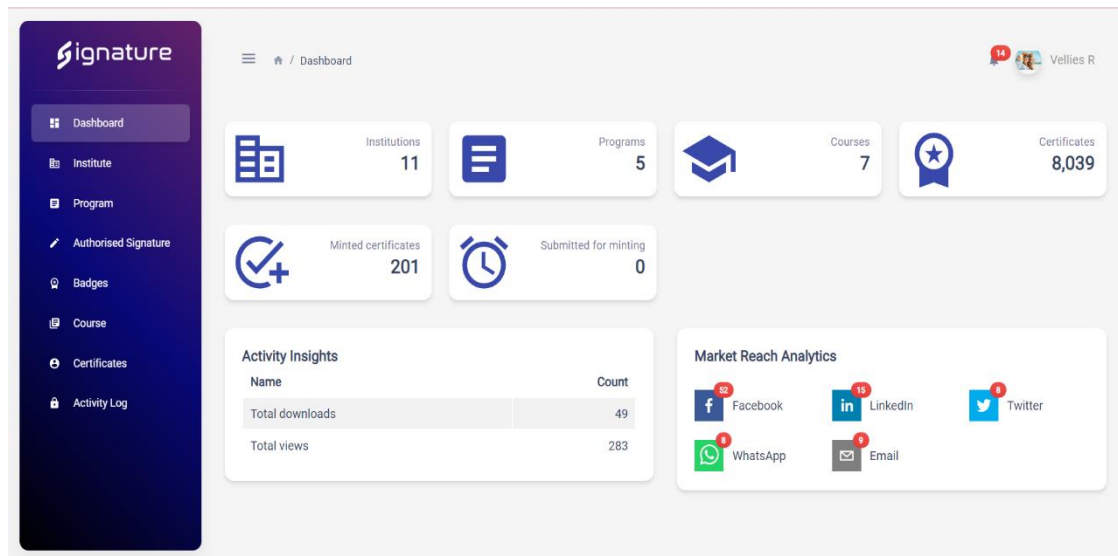

> Login Failure Page
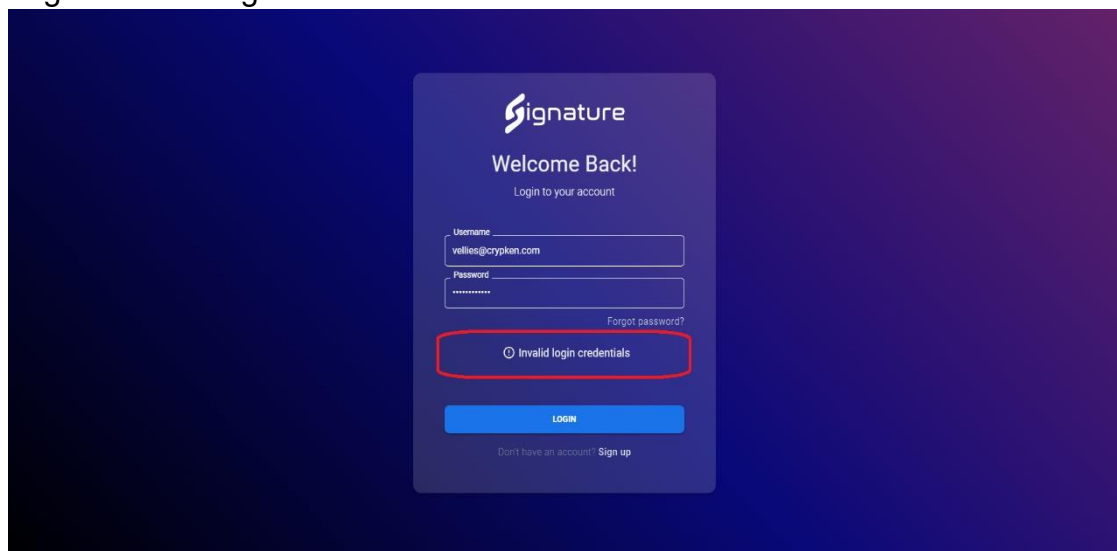

REST API:

Name: Login

Method: POST

Headers:

Body:

```
{
  "variables": {
    "input": {
      "username": "vellies@yopmail.com",
```

```
        "password": "Admin@123"

    }

  },

  "query": "query ($input: LoginRequest) {\n  login(input: $input) {\n responseCode\n    data\n    __typename\n  }\n}"

}
```

==

Reset Password:

> ➢ Click Forgot password.
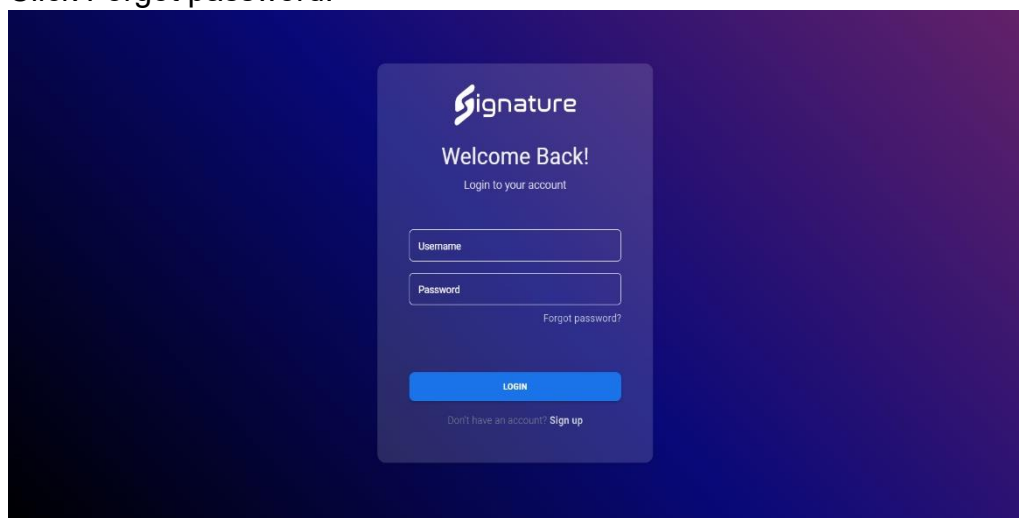

> ➢ Enter already registered email and click RESET PASSWORD button.
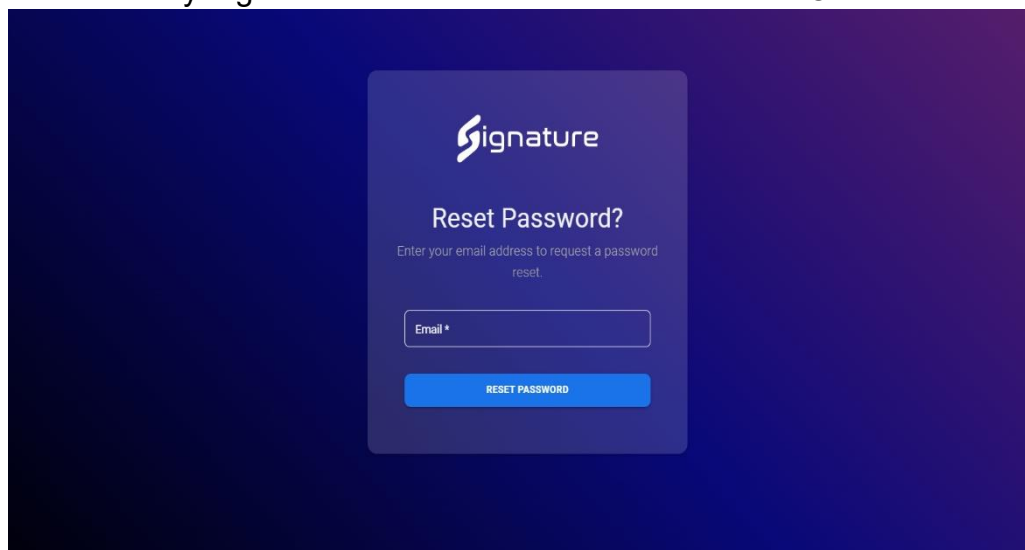

➤ Reset Password Success Page.
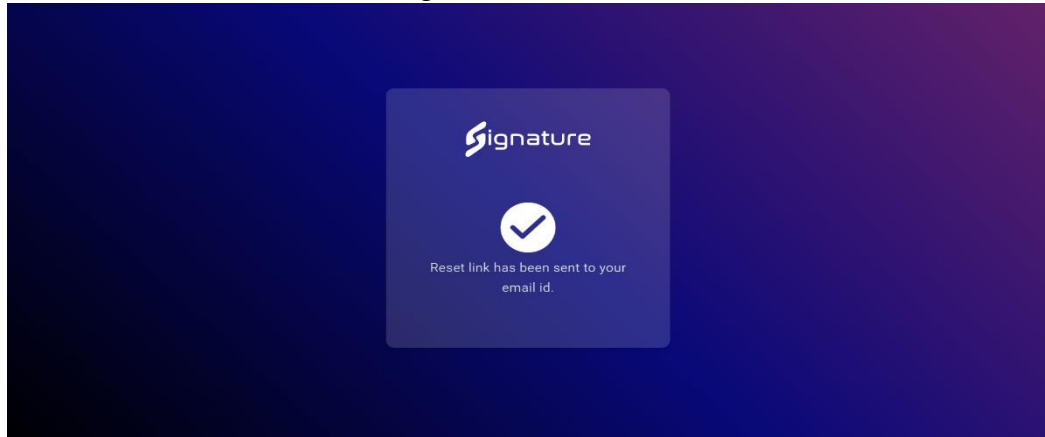

➤ Go to your mail id and click Reset password button.

➤ Enter password and confirm password then click submit button.
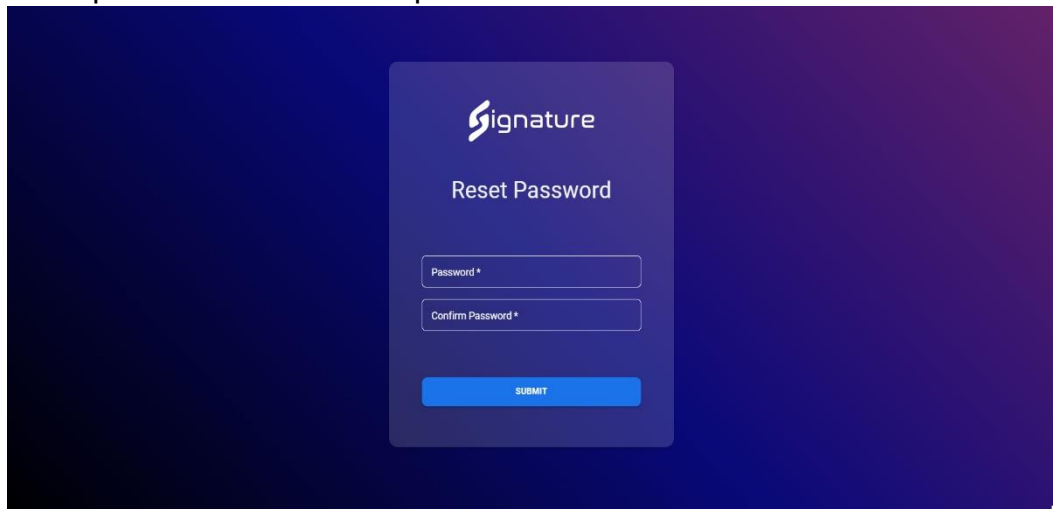

➤ Reset password success return to login page and use this password to login.

➤ Reset Password Failure Page.
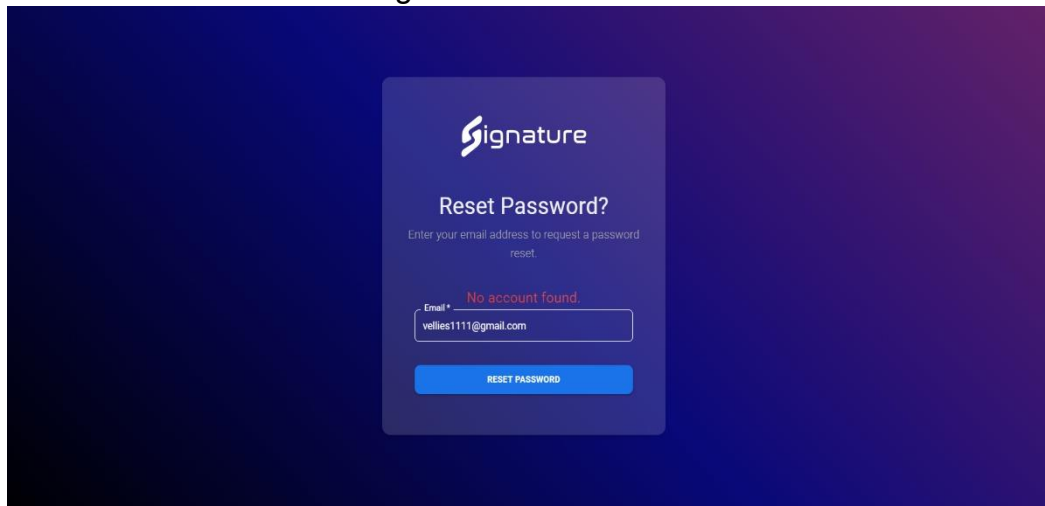

REST API:

Name: Reset Password Send Mail

Method: POST

Headers:

Body:

```
{
  "variables": {
    "input": {
      "email": "vellies@yopmail.com"
    }
  },
  "query": "query ($input: ForgotPasswordRequest) {\n  forgotPassword(input: $input) {\n    responseCode\n    data\n    __typename\n  }\n}"
}
```

Name: Reset Password

Method: POST

Headers:

Body:

```
{
  "variables": {
    "input": {
      "token": "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJ1c2VySWQiOiI2MmRlMzg0NTMxMDQ2YTIwNDJiMDY5NmMiLCJlbWFpbCI6ImFkbWluY3J5cGtlbkB5b3BtYWlsLmNvbSIsInRva2VuRXhwaXJhdGlvbiI6MzAsImlhdCI6MTY5NzYxNjI3NH0.6SEWMwXku1IOoYRLYLsdB_KiccGfcRzj8ad7mtfF_SA",
      "password": "Admin@123",
      "oldPassword": ""
    }
  },
```

```
    "query": "query ($input: ResetPasswordRequest) {\n  resetPassword(input:
$input) {\n    responseCode\n    data\n    __typename\n  }\n}"

}
```

===

Dashboard:

❖ Admin user login successfully default showing dashboard page.
❖ This dashboard page showing for Institution Counts, Program Counts,
Courses Counts and certificate Counts. Also showing Activity insights
and Market Reach Analytics.

Authorised Signature:

❖ Go to authorized signature menu showing authorized signature list page. There is default showing 10 rows.

❖ When we need to add authorized signature click Add signature button. Now showing Add authorized signature page.

❖ Enter valid authorized signature details and click submit button.

❖ Once authorized signature created successfully return to authorized signature list page. This created authorized signature showing in the list.

- ❖ Anything actions needed in the authorized signature list use action column edit icon and delete icon.
- ❖ Edit icon use to update the authorized signature details.
- ❖ Delete icon used to delete this authorized signature. This authorized signature disabled. Also disabled this authorized signature course also disabled.

```

Certificate:

- ❖ Go to certificate menu showing certificate list page. There is default showing 10 rows.

- ❖ When we need to add certificate click Add certificate button. Now showing Add certificate page.
- ❖ In the certificate page we need to add students for who want blockchain powered digital certificate.
- ❖ This students list adds to two way. The ways are,
    - I.   Individual
    - II.   Bulk

Individual:

- -   Here have student basic details.
- -   We add multiple students (MAX:1000).
- -   The student details added lists are showing same page. There is anything need to particular student data we use update button.
- -   Once lists are ready click submit button.

Bulk:

- -   Click Bulk radio button.
- -   Follow the steps shown here.
- -   Once lists are ready click submit button.

❖ Enter valid certificate student details and click submit button.

❖ Once students are created successfully return to certificate page. This created students showing in the list.

- ❖ Anything actions needed in the student list use action column edit icon and delete icon.
- ❖ Edit icon use to update the certificate student details.
- ❖ Delete icon used to delete this student.
- ❖ Once student lists are ready select current list dropdown new value.
- ❖ Select student list left side checkbox or check all checkbox.

- ❖ Once students selected click submit for blockchain certification button.
- ❖ Students data submitted blockchain can't edit or delete.
- ❖ This selected max students are 100.
- ❖ This student list send their organisation mail.
- ❖ This student Count added in notification page.

- ❖ Few min back or within one day we submitted data are minted in block chain.
- ❖ The certificate minted blockchain view eye icon enabled.

- ❖ The view icon enabled click. Now showing certificate page.
- ❖ This certificate has student certificate, student all details and blockchain minted details.
- ❖ This certificate page have download option, view credentials and social share.
